

Questions to ask your doctor: Deciding on a therapy

1.	Which therapies are possible in my case and what are they for?	5. How long will these therapies take?
2.	What are the chances and risks of surgery?	6. When should I start with this treatment?
3.	Which chances and risks might be followed by radiation therapy?	7. Where could I get a second opinion?
4.	Which chances and risks are possible after chemotherapy?	Is my insurance covering the costs of the therapy?
